An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims 10 and 11 have been rewritten below using the correct status identifiers.

10. (Previously Amended) A rotary device for a horizontal injection molding machine, comprising a base plate supported on a machine bed of a horizontal injection molding machine; a rotary table supported on the base plate for rotation about a vertical rotation axis, and drive means for rotating the rotary table, wherein the drive means includes a pivot pin extending downwards from the rotary table and projecting through the base plate.

11. (Original) The rotary device of claim 10, and further comprising a stator disposed underneath the base plate, said pivot pin being rotatably supported in the base plate and the stator.

The following is an examiner's statement of reasons for allowance: claims define over the prior art since the prior art fails to disclose or suggest a base plate supported on/in a machine bed as set forth in claims 10 and 12 and as described in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
